

# STAS sneeze guards

professional solutions for slowing down the spread of the COVID-19 corona virus

It is emphasized that the "social distancing society" will remain current for the rest of this year, and more likely much longer. At STAS we have developed various sneeze guards that can be used in offices, catering, shops, government and healthcare institutions, warehouses, schools and beauty and nail salons to protect everyone against the spread of the virus.

By creating barriers, the chances of spreading are considerably reduced and "normal" life can be resumed little by little. Not a simple tablecloth, but professional solutions of A-PET or plexiglass with the highest transparency for the least possible blurred vision.

## STAS barrier screen 100x100cm for (drop)ceilings

- Rollable and partly assembled
- A-PET screen of 100 cm wide and 100 cm high
- Can be hung on (drop)ceilings with supplied (drop) ceiling hooks and cords
- Often used in supermarkets and shops

**CORONASCHERM** 100 x 100 cm

## STAS plexiglass screen with pedestals 115x80cm with handy cut-out

- Sturdy SAN UV 4mm plexiglass screen (115cm wide x 80cm high) incl. plexiglass pedestals (40cm high x 29.5cm wide)
- With handy cut-out (25cm wide x 15cm high) through which pin devices or products can be safely handed out
- Ideal for shops, governmental- and healthcare institutions and beauty and nail salons

**CS20800** 115 x 80 cm x 4 mm

## STAS plexiglass screens various sizes

- High-quality plexiglass of 4mm thick
- Highest transparency for the least possible blurred vision
- Easy to mount with our optional suspension sets for hanging from (drop) ceilings or choose for a more flexible screen with our optional pedestals
- Ideal for offices, counters, cash registers and front desks

<b>CS30100</b>	60 x 75 cm x 4mm
<b>CS30200</b>	60 x 100 cm x 4mm
<b>CS30300</b>	75 x 100 cm x 4mm
<b>CS30900</b>	65 x 150 cm x 4 mm

Can be ordered in multiples of 6, with a delivery time of approximately 5 working days

### Large format plexiglas (only to be used with suspension sets for hanging)

<b>CS40500</b>	150 x 100 cm x 4mm
----------------	--------------------

Can be ordered in multiples of 6, with a delivery time of approximately 5 working days

<b>CS40700</b>	300 x 100 cm x 4mm
----------------	--------------------

## STAS RVS stainless steel pedestals safe and stable

The stainless steel pedestals (750 gr per piece) are easy to install through the holes of the plexiglass screen. Thanks to these pedestals the screen stands firm and stable.

<b>CS40000</b>	set 2 pieces (14 x 3 cm)
----------------	--------------------------

## STAS pedestals for plexiglass screens safe and stable

The plexiglass screens are easy to place in the optional pedestals so that the screen is stable and stays put.

<b>CS20100</b>	set 2 pieces (20 x 7 x 4 cm)
----------------	------------------------------

## STAS desk clamps

The STAS desk clamps are suitable for clamping plexiglass screens on desks or tables to create safe workplaces in the classroom or office. The clamps hold the plexiglass screens in place, even for desks with automatic height adjustment. The STAS desk clamps can be attached to surfaces with a thickness of up to 34 mm and can clamp screens with a thickness between 2 and 28mm.

The STAS desk clamps are available in 2 variants:  
STAS desk clamp end piece for the sides of desks or STAS desk clamp in-between for placing a screen between 2 connecting desks.

- PS90100** STAS desk clamp end piece
- PS90200** STAS desk clamp in-between

## STAS suspension sets for plexiglass screens

### Set for drop ceilings

For hanging a plexiglass screen (4-8 mm thick) from a drop ceiling.

- The white STAS drop ceiling hooks are placed over the intermediate profile of the drop ceiling
- Hook a STAS steel cable with loop on both drop ceiling hooks
- Screw the supplied clamps onto the ends of the cables and clamp a plexiglass screen (already in your possession or ordered separately from STAS)

**SE10300** set for drop ceilings

### Set for concrete ceilings

For hanging a plexiglass screen (4-8 mm thick) from a concrete ceiling.

- The STAS qubics can be mounted using the screws with plug
- In both STAS qubics you hook a STAS steel cable
- Screw the supplied clamps onto the ends of the cables and clamp a plexiglass screen (already in your possession or ordered separately from STAS)

**SE10200** set for concrete ceilings

## STAS mobile safety screens

Work together at any time in safe conditions. STAS presents a series of safety screens that are characterized by flexibility, stability and solid materials. We show you our (mobile) safety screens to reduce the risk of contamination in the workplace or in the classroom.

## STAS semi-transparent partition wall

The STAS semi-transparent partition wall is rock solid thanks to the steel feet and the lightweight frame construction. The semi-transparent screen is a clear polycarbonate screen and suitable for the need for just a little more privacy, unlike our transparent screens. Wheels for this partition wall can be ordered optionally. Ideal for professional use as a cough screen in schools, companies, offices or institutions.

**WHWST120180** H180 cm x B120 cm

**WHWST140120** H140 cm x B120 cm

Tip: The STAS semi-transparent partition walls are easy to connect with the supplied 2-way or the additional 3-way / 4-way connection caps in order to create workplaces.

## STAS mobile plexiglass screen

Make a safe set up in no time in any office, meeting room or canteen. These flexibly deployable screens are mobile and very light in weight. The transparent screen consists of high-quality plexiglass of 70% acrylic and 30% polystyrene. The anodized aluminum frame includes a white steel base on 4 wheels with brakes.

**WHWPL19080** H190 cm x B80 cm

**WHWPL190106** H190 cm x B106 cm

**WHWPL190126** H190 cm x B126 cm
